

# The Professional Security Office Course Syllabus

## **Description**

Administered through The Security Officer Network's custom curriculum and assessment portal, the PSO I course allows participants to study and prove understanding of best practices for security officer conduct.

## **Objectives**

Upon completion of the course, the participant should:

Understand basic best practices of on-site and in-uniform conduct;

Have an awareness for the problematic habits that compromise the officer's professionalism;

Know the strategies for avoiding and mitigating worst practices; and

Develop a familiarity with the consequences of less-than-professional habits.

## **Requirements**

The participant must submit eight reading assignments and complete a 10-question timed assessment.

## **Level**

This is a basic, first-level course; it is suitable for all participants.
