

The Private Security Consultant

Five Hours

Lesson Link:

thesecurityofficernetwork.com/training/security-consultant

Description

Administered through The Security Officer Network's custom curriculum and assessment portal, course takers study the role of consultant in the private security industry. Students analyze the security assessment, the recommendations white paper and the process for assessing and documenting security conditions.

Objectives

Upon completion of the course, the participant should:

Know the process of conducting security assessments;

Be prepared to develop recommendations white papers;

Understand the role of the consultant in the private security industry.

Requirements

The participant must submit nine reading assignments and complete a twenty-question timed assessment.

Level

This is an advanced level course.
